

Verification Statement

Climate, Community & Biodiversity Standards

Third Edition

Monitoring Period, 01 July 2019 – 30 June 2020

Project Title	Forest management to reduce deforestation and degradation in indigenous communities Shipibo Conibo and Cacataibo of the Ucayali region
VCS Project ID	1360
Project Proponent(s)	Asociación para la Investigación y Desarrollo Integral – AIDER Contact: Jaime Nalvarte Armas Address: Calle Las Camelias 174, Piso 6 - San Isidro. Lima Telephone: (511) 5956644 Email: lima@aider.com.pe
Project Location	Perú, Ucayali department
Date of Verification	14 July 2021
Distinctions	The project was verified in conformance with the CCB Standard Third Edition at Climate and community Gold Level.
Verification Opinion	AENOR Internacional, S.A.U. has performed the verification of the project Forest management to reduce deforestation and degradation in indigenous communities Shipibo Conibo and Cacataibo of the Ucayali region. The verification assessment covered the monitoring period from 1 July 2019 – 30 June 2020 and verified that calculated emission reductions and/or removals were achieved during the monitoring period with a reasonable level of assurance. The overall risk rating was 15 %. Therefore, the total number of credits to be deposited in the buffer account is 39,479 VCUs and the total VCUs to be issued are 223,717.

Beyond benefits of GHG emissions reduction, the project comprises benefits for local population and for biodiversity conservation, including exceptional community benefits.

The review and cross-check of explanations and justifications in the monitoring report, dated on 29 June 2021 version 3, with supporting sources have provided AENOR with sufficient evidence to confirm the accomplishment of all stated criteria of the Climate, Community and Biodiversity Standard Third Edition.

In opinion of AENOR, the project and the monitoring report meet all relevant requirements for the CCB Standards Third Edition, including climate change adaptation benefits and exceptional community benefits.

AENOR confirms the project is being implemented in accordance with the validated project description and no minor changes in the monitoring period.

AENOR confirms that the project has achieved the results stated in the monitoring report for Climate, Community and Biodiversity, summarized in the cover page, for the present monitoring period.
